Filmora
OBS Studio

WORK EXPERIENCE

Project Manager

Liquid Development (Keywords Studios)

Multiple In-Development Projects | May 2024 - Present

- Coordinating daily production activities for two concurrent game projects, ensuring around 25 world building artists from multiple states, countries, and time zones are aligned with contracted deadlines
- Collaborating directly with client production and design teams within Slack, Teams, ShotGrid, JIRA, Miro, and Monday to track artist task progress, set up reviews, and submit updates
- Working alongside art leads and art directors to attend meetings, gather context, and determine estimates or possible pitfalls

Tools QA Tester

Deck Nine Games

The Expanse: A Telltale Series, Life is Strange: Double Exposure | Dec 2022 - June 2023

- Partnered with tools programming team to test and validate all in-house tools and Unreal Engine 4/5 updates, ensuring seamless integration across two game production teams. Conducted manual testing, documented bugs in JIRA, performed regression testing, and resolved multiple persistent issues
- Supported QA for two games and contributed to the development of a new in-house toolset by identifying and documenting critical functionalities for narrative, audio, lighting, and animation designers

Information Technology Assistant

PS Bank

Banking Systems | Aug 2022 - Nov 2022

- Answered calls and emails regarding computer questions from bank employees, regularly performed troubleshooting on both hardware and software issues, trusted with secure and sensitive banking systems and information
- Aided with the migration of Cisco calling systems for 90 employees in under one month
